Division Basics
Division by Mental Math

Student's Name : _____   class : _____

For example:

$3,000 \div 6 = \boxed{5}\ \boxed{00}$

Here, We are dividing 30 by 6, which only leaves two 0's to put at the end.

Now, it's practice time:

1. $600 \div 2 = \square\ \square$

2. $1,000 \div 5 = \square\ \square$

3. $3,500 \div 7 =$ _____

4. $6,500 \div 13 =$ _____

5. $21,000 \div 3 =$ _____

6. $42,000 \div 7 =$ _____

7. $3,600 \div 6 =$ _____

8. $4,000 \div 5 =$ _____

9. $440 \div 4 =$ _____

10. $280 \div 4 =$ _____

11. $7,200 \div 9 =$ _____

12. $5,600 \div 14 =$ _____

13. $27,000 \div 9 =$ _____

14. $13,500 \div 15 =$ _____

15. $6,400 \div 8 =$ _____

16. $4,500 \div 9 =$ _____

17. $7700 \div 7 =$ _____

18. $520 \div 13 =$ _____

19. $1,080 \div 12 =$ _____

20. $9,800 \div 14 =$ _____

21. $12,000 \div 6 =$ _____

22. $18,000 \div 9 =$ _____

23. $3,600 \div 18 =$ _____

24. $2,400 \div 6 =$ _____

25. $810 \div 9 =$ _____

26. $760 \div 4 =$ _____
