

Division Basics

(Addition, Subtraction, Multiplication)

Student's Name : _____

class : _____

Hi, I am Max. I will tell you about the Divisions. While doing divisions, we need to know about additions, subtractions and multiplications. So, before we start, we do some revision.

Answers

$16 + 2 = \underline{18}$

$11 + 9 = \underline{20}$

$13 + 9 = \underline{22}$

$6 + 3 = \underline{9}$

$7 + 11 = \underline{18}$

$17 + 8 = \underline{25}$

$10 + 4 = \underline{14}$

$8 + 3 = \underline{11}$

$6 + 9 = \underline{15}$

$13 + 5 = \underline{18}$

$15 + 4 = \underline{19}$

$0 + 12 = \underline{12}$

$7 + 3 = \underline{10}$

$17 + 7 = \underline{24}$

$8 + 15 = \underline{23}$

$8 + 2 = \underline{10}$

$7 + 7 = \underline{14}$

$17 + 6 = \underline{23}$

$4 + 5 = \underline{9}$

$8 + 0 = \underline{8}$

$14 + 5 = \underline{19}$

$12 + 1 = \underline{13}$

$12 + 5 = \underline{17}$

$7 + 6 = \underline{13}$

$13 + 6 = \underline{19}$

$13 + 6 = \underline{19}$

$9 + 7 = \underline{16}$

$17 + 3 = \underline{20}$

$8 + 9 = \underline{17}$

$5 + 9 = \underline{14}$

$12 + 5 = \underline{17}$

$16 + 10 = \underline{26}$

$18 + 2 = \underline{20}$

$12 + 6 = \underline{18}$

$4 + 9 = \underline{13}$

$13 + 11 = \underline{24}$

$14 + 5 = \underline{19}$

$14 + 9 = \underline{23}$

$19 + 9 = \underline{28}$

$18 + 3 = \underline{21}$

$13 + 8 = \underline{21}$

$15 + 7 = \underline{22}$

$6 + 4 = \underline{10}$

$15 + 4 = \underline{19}$

$18 + 4 = \underline{22}$
