

PRACTICE:

$$\frac{36}{3} \rightarrow 3 \overline{)36} \rightarrow 3 \overline{) \begin{array}{r} 36 \\ 3 \\ \hline 0 \end{array}} \rightarrow 3 \overline{) \begin{array}{r} 36 \\ 3 \downarrow \\ 06 \\ \hline 06 \\ \hline 0 \end{array}} \rightarrow 3 \overline{) \begin{array}{r} 12 \\ 36 \\ 3 \downarrow \\ 06 \\ \hline 06 \\ \hline 0 \end{array}}$$

NOW YOUR TURN:

1. $\frac{24}{2} = 2 \overline{)24} = \boxed{12}$

2. $\frac{16}{8} = 8 \overline{)16} = \boxed{2}$

3. $\frac{30}{5} = 5 \overline{)30} = \boxed{6}$

4. $\frac{42}{6} = 6 \overline{)42} = \boxed{7}$

5. $\frac{46}{6} = 6 \overline{)46} = \boxed{7 \text{ R } 4}$

6. $\frac{28}{7} = 7 \overline{)28} = \boxed{4}$

7. $\frac{19}{9} = 9 \overline{)19} = \boxed{2 \text{ R } 1}$

8. $\frac{15}{3} = 3 \overline{)15} = \boxed{5}$

9. $\frac{72}{8} = 8 \overline{)72} = \boxed{9}$

10. $\frac{55}{5} = 5 \overline{)55} = \boxed{11}$

11. $\frac{75}{6} = 6 \overline{)75} = \boxed{12 \text{ R } 3}$

12. $\frac{23}{4} = 4 \overline{)23} = \boxed{5 \text{ R } 3}$

13. $\frac{38}{4} = 4 \overline{)38} = \boxed{9 \text{ R } 2}$

14. $\frac{21}{7} = 7 \overline{)21} = \boxed{3}$
