

Subtracting Fractions

Assignment

Little Froggy already picked out his favorite egg, but Mr. Bunny accidentally placed it with all other eggs in his garden. Use the problem below to help Mr. Bunny to find little froggy's egg. Make sure your answer in simplest form.

Move the Mr. Bunny the number of space per each answer in the given direction

Example

1 $\frac{6}{7} - \frac{3}{7} = \frac{3}{7}$ Space East

2 $\frac{5}{6} - \frac{3}{6} = \underline{\quad}$ Space East

3 $\frac{13}{10} - \frac{11}{10} = \underline{\quad}$ Space west

4 $\frac{7}{10} - \frac{4}{10} = \underline{\quad}$ Space west

5 $\frac{19}{21} - \frac{7}{21} = \underline{\quad}$ Space north

6 $\frac{3}{6} - \frac{1}{6} = \underline{\quad}$ Space South
