# SUBTRACTING FRACTIONS - MAZE

ANSWERS

Little Froggy already picked out his favorite egg, but Mr. Bunny accidently placed it with all the other eggs in his garden. Use the problems below to help Mr. Bunny find Little Froggy's egg. *Make sure your answers are in simplest form*

Move Mr. Bunny the number of spaces per each answer in the given direction.

1. $1\frac{1}{2} - \frac{5}{6} = \boxed{\dfrac{2}{3}}$ spaces east | HELPFUL EXAMPLE

2. $4\frac{3}{10} - \frac{4}{5} = 3\boxed{\dfrac{1}{2}}$ spaces south

3. $1\frac{3}{4} - 1\frac{1}{3} = \boxed{\dfrac{5}{12}}$ spaces east

4. $5\frac{5}{6} - 2\frac{11}{18} = 3\boxed{\dfrac{2}{9}}$ spaces north

5. $3\frac{3}{8} - 2\frac{5}{6} = \boxed{\dfrac{13}{24}}$ spaces west

6. $6\frac{3}{14} - 4\frac{13}{14} = 1\boxed{\dfrac{2}{7}}$ spaces north

7. $2\frac{3}{5} - \frac{4}{7} = 2\boxed{\dfrac{1}{35}}$ spaces east

8. $\frac{4}{6} - \frac{2}{9} = \boxed{\dfrac{4}{9}}$ spaces south

9. $1\frac{1}{5} - \frac{2}{3} = \boxed{\dfrac{8}{15}}$ spaces east

10. $5\frac{1}{2} - 4\frac{11}{14} = \boxed{\dfrac{5}{7}}$ spaces north

11. $9\frac{6}{7} - \frac{3}{4} = 9\boxed{\dfrac{3}{28}}$ spaces west

12. $7\frac{8}{9} - 7\frac{1}{2} = \boxed{\dfrac{7}{18}}$ spaces south
