

# Basic Subtraction

## Concept

If we have four pencils and want to subtract or take away one pencil, we would write like this

$$4 - 1 = 3$$

4-1, means we have four pencils and we need to take away 1

After take away one pencil we have left three pencils

## Assignment

5 cars - 2 cars

$5-2= \underline{\quad}$

8 hearts - 3 hearts

$8-3= \underline{\quad}$

7 stars - 2 stars

$7-2= \underline{\quad}$

Read the problems below and draw the shape to show your subtraction work

Mr. Jhon have 10 bicycles but sold 4 of them.  
How many bicycles does he have left ?

$\square - \square = \square$

Mr. Ali have 7 cars but lost 3 of them.  
How many bicycles does he have left ?

$\square - \square = \square$
