

Greater than and Less than

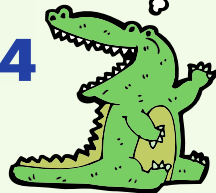

Concept

When comparing Numbers.
Think of a hungry Alligator
wants to eat larger number

Which mean's
his face toward
the larger
number

4

2

4 is a
greater
number

$$4 > 2$$

Example

16

98

$$16 < 98$$

Since mouth facing toward "98"
"98" is greater than "16"

Assignment. I

6	<	8
9		11
17	>	14
15		27
21		20

Assignment. II

21		86
54		38
47		18
21		44
96		47
