

Name _____

Class _____

Adding Integers

Find each sum of Integers.

1) $78 + (-15) = \mathbf{63}$

1) $16 - (-52) - (-33) = \mathbf{101}$

2) $(-27) + 31 = \mathbf{4}$

2) $(-32) + (-25) + 19 = \mathbf{-38}$

3) $(-41) + (-95) = \mathbf{-136}$

3) $24 + (-17) + (-78) = \mathbf{-71}$

4) $99 + (-125) = \mathbf{-26}$

4) $(-65) - (-21) + 98 = \mathbf{54}$

5) $(-128) + (-231) = \mathbf{-359}$

5) $96 + (-89) + 55 = \mathbf{62}$
